

RA TROUSERS

After an increased demand for our successful 3 L GORE-TEX camouflage range, we are now also launching the Rampart range in our own TMTP camouflage. Like the jacket, this is a further development on the design of the earlier 3 L GORE-TEX Rampart CRW-01 trousers. In comparison with CRW-01, the Rampart RA trousers are tougher, with added reinforcement in areas subject to wear and tear. The trousers are designed for use by both vehicle drivers and field workers and have a spacious map pocket on the left thigh. These features have made the jacket and trousers popular with a wide range of users.

FUNCTIONS

- Fly
- Elasticated waist with belt
- Protective panels on the back knees and leg ends
- Raised at the back
