RUSSEL TROUSERS WOMEN

Russel Trousers are designed for an active outdoor work life and are durable and comfortable. They are made from a tightly woven poplin with stretch that is comfortable in the summer, wind-resistant and quick-drying in the autumn, and also keeps you warm in the winter with long johns underneath. The knees have reinforcements, knee protection pockets, and a 3D mesh which makes them durable and prevents ground cold from penetrating when you work on your knees. The trousers have practical pockets and ventilation zippers with mesh on the thighs and calves, ensuring comfort during high activity.

TP 122
