

FIELD DTJ UAC SHIRT

The Field DTJ UAC Shirt, along with the other components of our tropical uniform, has become a highly popular system for operations in warmer climates, thanks to its exceptionally high comfort level. The material blend in this product offers the benefits of rapid drying time and durability. The large buttons make it easy for the user to close the pockets and secure their equipment. In the tropical uniform, we have minimized all zippers to reduce the risk of abrasions on hands, as the risk of infection is often significant in these climates.

FUNCTIONS

- Protective collar
- Elastic fabric over torso
