TIR LC TARP

The TIR LC Tarp effectively protects users or equipment from being detected by light-enhancing and thermal imaging lenses. It operates across a wide range of the electromagnetic spectrum. The fabric is capable of interacting with infrared radiation wavelengths in the NIR, SWIR, MWIR, LWIR, and FIR ranges. The material features zones with varying levels of reflectance to blend into the surrounding environment, and the tarp's outer fabric includes cut leaves for improved camouflage in similar vegetation. It also offers excellent properties such as durability, low weight, breathability, and ease of packing.

FUNCTIONS

- 3 x 2.20 meters
- Edge tape and loops at the outer edge for flexible fastening
- Double-layered fabric, with the top layer consisting of leaves that rise to create an irregular shape

FACTS

Article no.	203247424
Sizes	3 x 2,20 meter
Colors	16MA TMTP® MA Multi Terrain Pattern *(MOQ)*
Material	Fabric: 100% polyamide
Other	Weight : 2400 g

WASHING INSTRUCTIONS
