TIR PONCHO

The TIR Poncho is a unique product that effectively protects the user from being detected by light-enhancing and thermal imaging lenses. It functions across a wide range of the electromagnetic spectrum. The fabric is capable of interacting with infrared radiation wavelengths in the NIR, SWIR, MWIR, LWIR, and FIR ranges. The material features zones with varying levels of reflectance to blend into surrounding environments. The poncho includes a fixed, adjustable hood with a concealed fabric that can be unfolded to protect the face. The fabric offers excellent properties such as durability, low weight, breathability, and ease of packing.

FUNCTIONS

- Fixed and adjustable hood
- Fabric concealed in the hood can be deployed to cover the face
- Snap buttons along the outer edge for quick closure
- Edge tape along the outer rim for flexible attachment

FACTS

Article no.	203213724
Sizes	One size
Colors	16MA TMTP® MA Multi Terrain Pattern *(MOQ)*
Material	Fabric: 100% polyamide
Other	Weight : 1220 g
