HOLD BRACES WOMEN

Hold Braces is our unique suspender system with simple Velcro adjustment for the right length. The design relieves pressure on the shoulders and distributes it between the shoulder blades. The suspenders stay in place like a harness on the upper body when detached from the pants, making it easier when you need to reinforce your clothing below or take off and put on the pants with the jacket still on. Hold Braces are available in different lengths and sizes. PFAS-free.

FUNCTIONS

- Velcro straps to adjust for the right length
